REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art cited of interest fails to disclose a pneumatic power tool comprising an adjustable exhaust air outlet deflector as recited in the claims. Dobie discloses a reversing valve comprising a rear end plate, i.e. outlet piece, and a reversing plate, i.e. valve element, both having at least one radially and one axially directed aperture arranged in a certain pattern, but fails to disclose wherein said outlet piece has at least one axially and one radially directed outlet opening, and said valve element has at least one axially and one radially directed aperture, wherein said outlet piece and said valve element are rotatable relative to each other between a first position at which the axially directed aperture of the valve fully coincides with the axially directed outlet opening of the outlet piece to direct exhaust air axially through the coinciding axially aperture and opening; and a second relative position at which said radially directed aperture of the valve element fully coincides with the radially directed opening of said outlet piece to direct exhaust air radially through the coinciding radially aperture and opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
